

CPS Feet Support

Add On

KB05MI-175

Manufacturer:
Kingsbox d.o.o.
Partizanska 129, 6210 Sežana
Slovenia

Customer service:
Write us on info@kingsbox.com or send us a message through our website at www.kingsbox.com/help

Usage class:
Studio (S)

Designed in compliance with:
ISO 20957

Warnings:

- Freestanding equipment shall be installed on a stable and levelled base
- All equipment designed with anchoring/attachement holes (e.g. rigs, racks, equipment and accessories for racks, storage pins/shelves, etc.) should be securely screwed to the fixed ground/wall/structure through all the designated fixing holes and with appropriate sized screws.
- Injuries to health may result from incorrect or excessive training
- Keep unsupervised children away from the equipment

WARNING!

Equipment installed on the rigs and racks:

The structure (rig/rack) onto which the equipment is attached **MUST** be securely anchored into the ground, otherwise a high risk of structure overturning exists.

Failure to do so presents a high risk of injuries that could eventually lead to death of the people exercising or present near the equipment.

The fixing bolts for wall and / or floor are not included in the package, since different types of anchor bolts must be used for different wall / floor types.

WARNING!

Equipment installed on the wall:

The equipment **MUST** be securely anchored to an appropriate wall (stable concrete wall in good condition) to avoid any failure of the equipment during exercise (such as equipment dettaching from the wall, wall damage, wall collapse etc.).

Assembly elements:

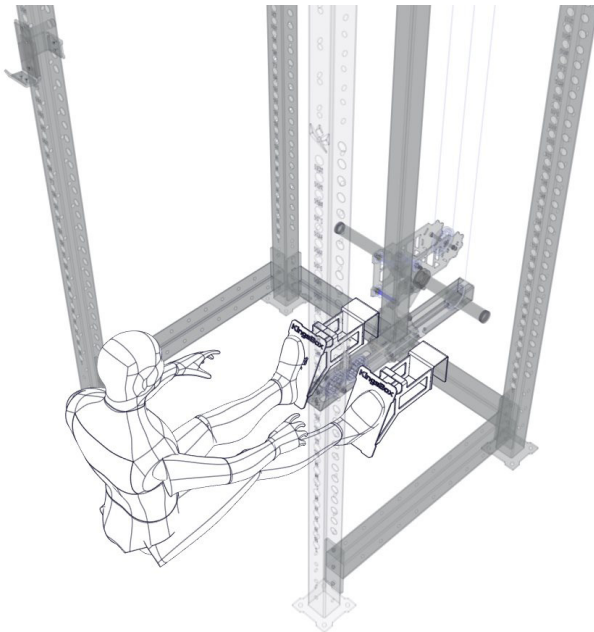

Position 1
CPS Feet Support

Assembly instruction:

1

2

3

Place a pad beneath you for a more comfortable exercise position.

Depending on the type of Kingsbox's pulley system, there could be a gap between the feet support and the floor. This is OK and should not affect the quality of exercise.
