Indoor use - Studio (S)

Designed in compliance with:

ISO 20957

Gym owner shall provide the user with all the warnings and instructions. The training equipment shall only be used in areas where access, supervision and control is specifically regulated by the owner.

Warnings:

- All equipment designed with anchoring/attachement holes (e.g. rigs, racks, equipment and accessories for racks, storage pins/shelves, etc.) should be securely screwed to the fixed ground/wall/structure through all the designated fixing holes and with appropriate sized screws.
- Keep unsupervised children away from the equipment

Maximum mass on storage pins: 70 kg/pin

WARNING!

Equipment installed on the rigs and racks:

The structure (rig/rack) onto which the equipment is attached **MUST** be securely anchored into the ground, otherwise a high risk of structure overturning exists.

Failure to do so presents a high risk of injuries that could eventually lead to death of the people exercising or present near the equipment.

The fixing bolts for wall and / or floor are not included in the package, since different types of anchor bolts must be used for different wall / floor types.

WARNING!

Equipment installed on the wall:

The equipment **MUST** be securely anchored to an appropriate wall (stable concrete wall in good condition) to avoid any failure of the equipment during exercise (such as equipment detaching from the wall, wall damage, wall collapse etc.).
